2012-2019

Projects

Sarv Swasthya – DBMS for Healthcare

Sarv Swasthya is a platform which brings together patients, doctors and insurance companies to untangle our country's muddled medical system. With a centralized medical database it eases the workload for everyone – Flutter, JavaScript, SupaBase, Figma

Weather App

The App asks for the location permission. Gets user's location with the help of the geolocator package. Calls the API of the Open Weather Map using http package. Displays the weather. It also has one screen to take input of a city and displays the weather of that particular city after calling the API w.r.t the city provided by the Open Weather Map.

BMI Calculator

The App has 2 screens. The first screen has two customised clickable cards for the gender. One slider widget and 2 customised widgets. The second screen displays result and message.
